

1. Air 1 has been the only positive radio station to help get me through the day. With all of the negative things in the world, Air 1 keeps me focused on what is important, God. It is listener supported for funds, which my husband and I donate to. This radio station is by far the best on the radio dial.

2. Replacing this radio station with an LPFM broadcaster would only hurt our society not benefit it. Having positive Christian radio is what keeps many people in our community going. I am sure a lot of listeners do not attend church, so this radio station is a way for them to feel connected with a positive forum while praising God.

3. Air 1 is an asset to the community. Our community is better for having Air 1 on the air.
